

## Mountain-related side events at COP 22

Date	Event	Organizations	Time/Room	Description
Tuesday, 08 Nov 2016	Towards building Community Resilience for the marginalized across vulnerable ecosystems in S. Asia	Academy for Mountain Environics (AME), LAYA, South Central India Network for Development Alternatives (SCINDeA)	16:45—18:15 Pacific	The side event will present insights and learning from resilience building initiatives undertaken at the community level across the three key ecosystems in S. Asia. It will specifically present challenges in implementation, role of women, the value of Climate Education and propose policy directions.
Friday, 11 Nov 2016	Mapping and understanding mountains to achieve the 2030 Agenda	Asociación Civil Oikos (OIKOS), Guinea, Yachay Wasi Inc.	13:15—14:45 Pacific	This event will assess the wellbeing of mountain communities and ecosystems globally. Because mountains are mentioned in three SDG targets, the discussion will also focus on ways to measure progress such as satellite data collection and household surveys.
Monday, 14 Nov 2016	The impact of climate change in mountain areas. A priority for a global action.	Andorra, Mountain Institute, Inc. (TMI), Pakistan	13:15—14:45 Bering	Vulnerable mountain ecosystems are critical for global fresh water. Covering 22% of all land, mountains are home to over 900 million people, many impoverished, food insecure and lacking resilience. We will review needs and mechanisms for addressing climate change in mountains under the UNFCCC.
Thursday, 17 Nov 2016	Experiences sharing on Nepal NAP formulation Process and Approaches	International Centre for Integrated Mountain Development (ICIMOD), Nepal	18:30—20:00 Arabian	In the spirit of Cancun Adaptation Framework and the Paris Agreement, Nepal is formulating NAP through the thematic and cross cutting working groups with "no one leave behind" approach by ensuring multi-stakeholder participation, inclusiveness and rigorous consultative process.

## Mountain-related exhibits at COP 22

Date	Description	Organizations
Monday, 07 November, 2016 - Saturday, 12 November, 2016	The exhibition will expose with images and case studies the benefits, advantages and importance of the conservation of high altitude mountain ecosystems (like pastures and wetlands) in adaptation and carbon storage in order to fight climate change.	Asociación Civil Oikos (OIKOS)
Monday, 07 November, 2016 - Friday, 18 November, 2016	"From NAPA to LAPA to NAP": Nepal is localizing climate adaptation by implementing NAPA prioritized actions and is formulating NAP building on the experiences, lessons learned and good practices of NAPA and LAPA (local adaptation plan for action) and other climate resilient programs.	International Centre for Integrated Mountain Development (ICIMOD), Nepal
Monday, 07 November, 2016 - Friday, 18 November, 2016	Exhibit shall Showcase Climate solutions at the grassroots from the perspective of Sustainable Development. Publications and videos sharing actions taken across on Adaptation and resilience building, community based decentralized technologies, Climate Education will be shared	Academy for Mountain Environics (AME), LAYA, South Central India Network for Development Alternatives (SCINDeA)
Monday, 14 November, 2016 - Friday, 18 November, 2016	ATREE's 1st exhibit at the COPs will present rigorous interdisciplinary research and local community outreach on: behavioural economics for renewable energy, sociohydrological modelling in a data-sparse river basin, and climate change impact on ecosystems in Himalayas and Western Ghats.	Ashoka Trust for Research in Ecology and the Environment * (ATREE)
Monday, 14 November, 2016 - Friday, 18 November, 2016	Antarctica Next Generation The Princess Elisabeth Antarctica the first Zero Emissions Research Station in Antarctica, was conceived of, designed and built by the International Polar Foundation (IPF). The Station was built at Utsteinen, in the Sor Rondane Mountains, East Antarctica, in 2007-2009.	International Polar Foundation (IPF)

All official side events and exhibits will take place within the conference venue at Bab Ighli.  
Please consult the direction signs on site for the exact location of the rooms for side events and the exhibit area.
